

Clatterbridge
Private Clinic

Consultant Directory

We pride ourselves on delivering exceptional consultant-led care to every one of our patients. Our consultants are leaders in their respective fields, and many have gained national and international recognition for their commitment to the treatment of and research into cancer.

If you choose Clatterbridge Private Clinic to provide your treatment, a single consultant will be responsible for overseeing every aspect of your care. This way you'll know you're always in the safe hands of someone who's familiar with you and your history.

We also do our very best to ensure each patient is looked after by the same team of specialist nurses, radiographers and non-clinical support staff - all of whom will get to know you and make your treatment as comfortable and as easy as possible.

Clatterbridge Private Clinic is part of The Clatterbridge Cancer Centre NHS Foundation Trust. You can be assured that our knowledge and expertise in the field of cancer treatment is second to none.

Income from Clatterbridge Private Clinic is reinvested back into The Clatterbridge Cancer Centre NHS Foundation Trust to support the delivery of cancer care across the region.

Lung Cancer

Special Interests
Chemotherapy
Biological therapy
Hormonal therapy
Acute oncology

Prof. Michael Brada *Professor of Radiation Oncology & Honorary
Consultant in Clinical Oncology*
BSc, MBChB, FRCR, FRCP, DSc

Specialty
Brain and Spinal Tumours
Lung Cancer

Special Interests
Radiotherapy
Stereotactic radiotherapy
Chemotherapy
Development and implementation of innovative treatments

Dr Eliyaz Ahmed *Consultant in Medical Oncology*
MBBS, MD, MRCPI, PhD

Specialty
Breast Cancer
Gastrointestinal Cancer - Stomach and Oesophagus
Hepatobiliary Cancer - Bile Duct and Gall Bladder
Cancer of Unknown Primary

Special Interests
Chemotherapy
Acute oncology

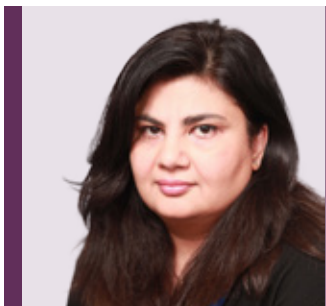

Dr Caroline Brammer *Consultant in Clinical Oncology*
MBChB, MRCP, FRCR

Specialty
Head and Neck Cancer
Gastrointestinal Cancer - Upper/Lower Oesophagus
and Stomach

Special Interests
Radiotherapy
Chemotherapy
Improving outcomes in head and neck cancer through
simultaneous chemotherapy and radiotherapy treatment

Dr Farida Alam *Consultant in Clinical Oncology*
MBBS, MRCP, FRCR

Specialty
Breast Cancer
Sarcoma

Special Interests
Radiotherapy

Dr Eswar Chinnamani *Consultant in Clinical Oncology*
MBBS, MRCP, FRCR, MSc

Specialty
Lung Cancer
Urological Cancer - Prostate and Bladder

Special Interests
Radiotherapy
Stereotactic radiotherapy
Prostate brachytherapy

Dr Doug Errington *Consultant in Clinical Oncology*
BSc, LRCP, MRCS, DCH, DMRT, FRCR

Specialty
Breast Cancer
Ocular Tumours

Special Interests
Radiotherapy
Chemotherapy
Proton Beam Therapy for the treatment of ocular tumours

Dr John Green *Consultant in Medical Oncology*
BSc, MBChB

Specialty
Gynaecological Cancer

Special Interests
Chemotherapy
Treatment of advanced gynaecological cancers, including rare tumours

Dr Olusola Faluyi *Consultant in Medical Oncology*
MBChB, PhD, MRCP

Specialty
Hepatobiliary Cancer - Pancreas, Biliary System and Liver
Neuroendocrine Tumours
Lung Cancer

Special Interests
Chemotherapy
Clinical trials

Dr Richard Griffiths *Consultant in Medical Oncology*
BSc, MBChB, MRCP, PhD

Specialty
Lung Cancer
Renal Cancer
Cancer of Unknown Primary

Special Interests
Chemotherapy
Immunotherapy
Targeted drug therapies
Acute oncology

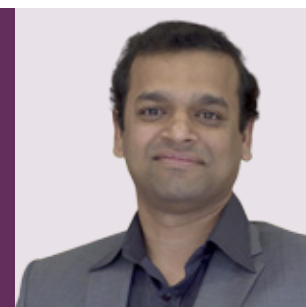

Dr Angel Garcia Alonso *Consultant in Clinical Oncology*
LMS, MD

Specialty
Gastrointestinal Cancer - Stomach and Oesophagus
Breast Cancer
Lung Cancer
Haematological Malignancies

Special Interests
Radiotherapy
Chemotherapy
Chemo-radiation techniques

Dr Anoop Haridass *Consultant in Clinical Oncology*
MSc, MBBS, MRCP, FRCR

Specialty
Head and Neck Cancer
Lung Cancer

Special Interests
Radiotherapy
Stereotactic radiotherapy
Immunotherapy

Dr Khizar Hayat *Consultant in Clinical Oncology*
MBBS, PhD, DMRT, FRCR

Specialty
Gynaecological Cancer
Breast Cancer
Skin Cancer

Special Interests
Chemotherapy
Radiotherapy
Brachytherapy for cervical cancer

Dr Azman Ibrahim *Consultant in Clinical Oncology*
MBBS, MRCP, FRCR

Specialty
Urological Cancer - Prostate and Bladder
Non-Melanoma Skin Cancer

Special Interests
Radiotherapy

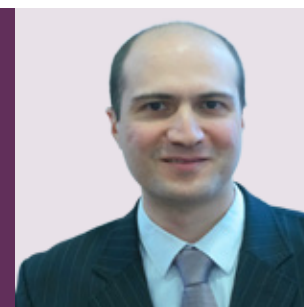

Dr Brian Haylock *Consultant in Clinical Oncology*
BSc, MB, DRCOG, MRCP, FRCR, LMCC, FRCP

Specialty
Gastrointestinal Cancer - Colorectal,
Upper Gastrointestinal Tract
Brain and Spinal Tumours

Special Interests
Radiotherapy
Stereotactic radiosurgery for brain tumours
Treatment of anal cancer

Dr Ayman Madi *Consultant in Medical Oncology*
MD, MRCP

Specialty
Gastrointestinal Cancer - Stomach, Bowel, Oesophagus
and Gastrointestinal Stromal Tumour
Cancer of Unknown Primary

Special Interests
Chemotherapy
Acute oncology

Dr. Syed A Hussain *Consultant in Medical Oncology*
MBBS, MSc, MD, FRCP

Specialty
Urological Cancer - Bladder, Prostate and Kidney

Special Interests
Chemotherapy
Biological therapy
Hormonal therapy
Immunotherapy
Clinical trials

Dr Zafar Malik *Consultant in Clinical Oncology*
MRCP, FRCR

Specialty
Breast Cancer
Urological Cancer - Prostate

Special Interests
Chemotherapy
Radiotherapy
Management of castrate resistant prostate cancer
Advanced breast cancer

Dr Amir Montazeri *Consultant in Clinical Oncology*
MD, MRCP, FRCR

Specialty
Gastrointestinal Cancer - Colorectal
Urological Cancer - Prostate and Bladder

Special Interests
Chemotherapy
Radiotherapy
Selective internal radiation therapy

Professor Carlo Palmieri *Consultant in Medical Oncology*
BSc, MBBS, PhD, FRCP

Specialty
Breast Cancer

Special Interests
Chemotherapy
Development and implementation of translational and clinical research involving novel agents in breast cancer
Survivorship issues

Dr Helen Neville-Webbe *Consultant in Medical Oncology*
PhD, MRCP, MBChB

Specialty
Gastrointestinal Cancer - Oesophagus, Stomach
and Small Bowel
Breast Cancer
Cancer of Unknown Primary

Special Interests
Chemotherapy
Acute oncology
Clinical trials in breast and upper gastrointestinal cancer

Dr Mohamed Saipillai *Consultant in Clinical Oncology*
MBBS, MRCP, FRCR

Specialty
Skin Cancer
Breast Cancer
Lymphoma

Special Interests
Radiotherapy

Prof. Arthur Sun Myint *Consultant in Clinical Oncology*
FRCP, FRCR, FFRCSI, FICS, FRSM

Specialty
Rectal Cancer

Special Interests
Papillon therapy for the treatment of early rectal cancer

Dr Raj Sripadam *Consultant in Clinical Oncology*
MBBS, MD, FRCR

Specialty
Breast Cancer
Gastrointestinal Cancer - Oesophagus, Stomach and Bowel
Hepatobiliary Cancer - Pancreas

Special Interests
Radiotherapy

Dr Isabel Syndikus *Consultant in Clinical Oncology*

MD, MRCP, FRCR

Specialty
Urological Cancer - Prostate and Bladder
Lymphoma
Benign Conditions

Special Interests
Radiotherapy
Chemotherapy
Hormone therapy
Radioisotope therapy

Dr Shaun Tolan *Consultant in Clinical Oncology*

MBBCh, MRCP, FRCR

Specialty
Urological Cancer - Prostate and Bladder
Breast Cancer

Special Interests
Chemotherapy
Radiotherapy
Radioisotope therapy
Radiotherapy to palliate symptoms of cancer

How to find us

By Road

Clatterbridge Private Clinic is located on the Clatterbridge Hospital site, just off Junction 4 of the M53. The Hospital is clearly signposted from the junction.

Once on the Hospital campus, head towards The Clatterbridge Cancer Centre at the far end of the site. The entrance to Clatterbridge Private Clinic is situated behind the main building. There is a free car park for private patients located outside the entrance to the Clinic.

By Rail

The nearest train station to us is Bebington, which is on the Merseyrail network. The 410 bus service connects the station and The Clatterbridge Cancer Centre and takes approximately ten minutes. There is also a private hire taxi service directly opposite the station.

By Air

Clatterbridge Private Clinic is well served by Liverpool John Lennon and Manchester International Airports, both of which have regular and direct connectivity to all continents. Our Private Patient Liaison Team can facilitate travel to and from these airports for international patients.
